Iperform 70 & Isafe 70

The ultimate in stylish heavy-duty compact flooring

Godfrey Hirst proudly introduces Iperform 70 & Isafe 70

With an impressive wear layer of 0.70mm, Iperform 70 & Isafe 70 offer durable vinyl flooring for high-traffic spaces. You'll find 20 unique and stylish designs for the most demanding areas stocked locally in Australia.

IPERFORM 70 748 ELIAS T93

This heterogeneous vinyl flooring is compact, impact-resistant, and easy to install.

Anti-bacterial heterogeneous vinyl floors for improved hygiene.

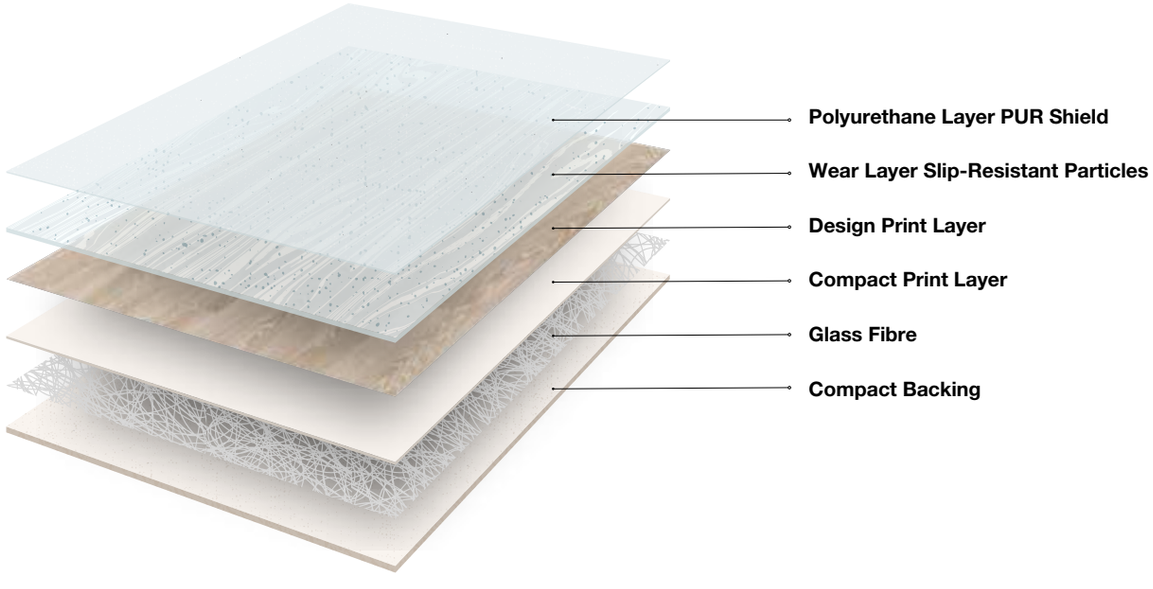

Sanitec™

Sanitec™ hygienic treatment is a permanent part of our anti-bacterial heterogeneous vinyl floors. Featured in the backing and wear layer, Sanitec™ inhibits the growth of bacteria on the surface and battles fungi in the subfloor. Providing a durable floor finish that's suited to sensitive areas such as education and health, while also bringing benefits in any project, anti-bacterial heterogeneous vinyl floors are easy to maintain. There's no extra work needed to maintain their hygiene benefits.

Safety flooring HyperGrip+™

Durable and with a HyperGrip+™ finish that helps with maintenance, Isafe 70 comes in a range of attractive looks so that extra safety doesn't compromise style in projects.

Flawless maintenance with HyperGuard+™

Thanks to the protective layer HyperGuard+™, the Iperform 70 ranges are easy to maintain and resistant to stains and scratches. This innovative treatment offers durability without compromising on design and with the same technical characteristics in terms of acoustics and resistance.

The Test

Test Principle (ISO 26987-2008)

Specified substances in liquid or paste form are placed on a test piece for defined periods and then removed. After cleaning has been carried out, the resulting change of appearance is assessed under specified lighting conditions.

Duration of Contact

2 hours

Cleaning Procedure

Each sample is washed with a cleaning agent (water + soap) and brush before the final assessment.

The Results

Internal Test

- Mayonnaise
- Ketchup
- Mustard
- Chocolate
- Coffee
- Tea
- Milk
- Red Wine
- Alcohol Gel
- Isobetadine
- KMn04
- Lugol

External Test

- Desinfectant 2.5%
- Test Benzine
- Ammonia Solution 10%
- Ethyl Alcohol 48%
- Citric Acid 10%

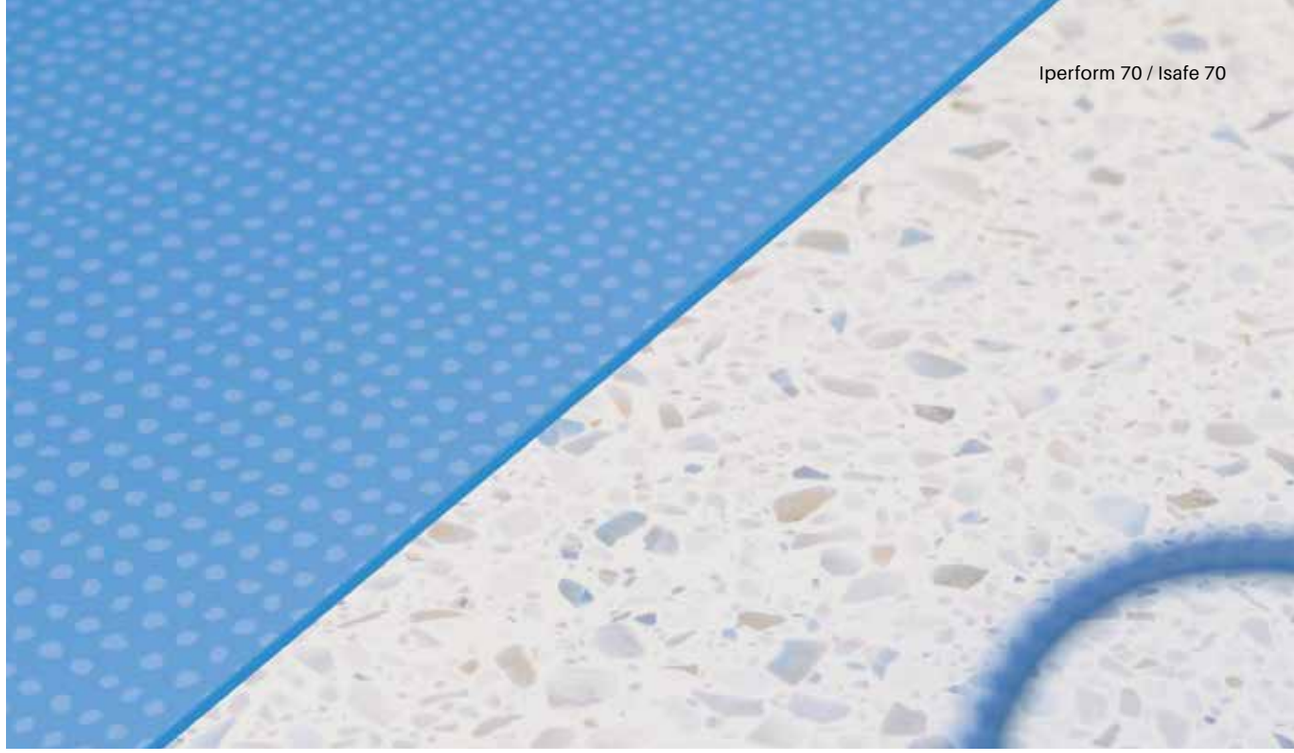

- Not Changed
- Slightly Changed
- Moderately Changed
- Greatly Changed

Iperform70 was extensively tested and achieved the best possible score in "stain tests" with very diverse substances.

Iperform 70 / Isafe 70

Technical Info

Hot Welding

4mm x 100m length

We stock matching weld rod for every Iperform 70 and Isafe 70 colour locally in Australia. Join your heterogeneous vinyl into a colour-matched welding, or create a contrasting weld. Either way will result in a flooring solution that is strong and beautiful. All Iperform 70 and Isafe 70 colours can also be installed using PVC cold welding liquid for closely cut seams.

Steps

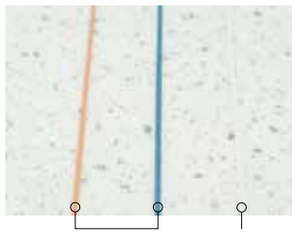

Contrasting welding
