Petra

Inspired by the hand-hewn caves and sandstone temples of ancient Jordan, Petra from Hycraft by Godfrey Hirst brings raw beauty, texture and natural warmth into any space.** Its low-level loop pile construction creates a beautifully uniform surface with an organic, grounded feel underfoot**, adding depth and understated sophistication to your space. The carefully curated palette of natural neutrals reflects the timeless character of wool, bringing depth and balance to contemporary living environments.

Crafted from wool, Petra combines timeless style with the natural performance benefits wool is renowned for. Naturally insulating, wool helps maintain warmth during cooler months while supporting a comfortable atmosphere year-round, creating a home that feels calm, cosy and inviting in every season. The low-level loop design is also crafted to minimise the appearance of tracking, making Petra an ideal choice for high traffic living areas, hallways and stairs where both style and practicality matter. Fire rated performance adds another layer of practicality, making it well suited to contemporary residential interiors. With an ACCS Residential Extra Heavy Duty 6 Star rating, Petra delivers exceptional durability while maintaining its rich textured appearance over time. Petra is also officially approved Declare® LBC Red List Free and Green Building Council of Australia compliant for VOC emission standards, offering **a premium flooring choice that combines natural comfort, resilience and enduring design appeal**.
